1. REPORTING ENTITY

Türk Telekomünikasyon Anonim Şirketi ("Türk Telekom" or "the Company") is a joint stock company incorporated in Turkey. The Company has its history in the Posthane – i Amirane (Department of Post Office) which was originally established as a Ministry on 23 October 1840. On 4 February 1924, under the Telephone and Telegraph Law No. 406, the authorization to install and operate telephone networks throughout Turkey was given to the General Directorate of Post, Telegraph and Telephone ("PTT"). The Company was founded on 24 April 1995 as a result of the split of the telecommunication and postal services formerly carried out by the PTT. All of the personnel, assets and obligations of the PTT pertaining to telecommunication services were transferred to the Company, the shares of which were fully owned by the Prime Ministry Under secretariat of Treasury ("the Treasury").

On 24 August 2005, Oger Telekomünikasyon A.Ş. ("OTAŞ"), entered into a Share Sale Agreement with the Turkey's Privatization Authority for the purchase of a 55% stake in the Company. A Shareholders Agreement and a Share Pledge Agreement for the block sale of the Company were signed on 14 November 2005 and then after, OTAŞ became the parent company of the Company.

Out of TL 3.500.000 nominal amount of capital, 15% of the Company's shares owned by the Treasury corresponding to a nominal amount of TL 525.000 have been issued to the public through an initial public offering with the permission of Directorate of Istanbul Stock Exchange on 15 May 2008. Since then Company shares are traded in Borsa İstanbul with the name of TTKOM.

Oger Telecom Limited ("Oger Telecom") owns 99% of the shares of OTAŞ, which in turn owns 55% of the Company. Oger Telecom is an entity incorporated in August 2005 as a limited liability company under the laws of the Dubai International Financial Centre.

As at 30 September 2018 and 31 December 2017, the ultimate parent and controlling party of the Company is Saudi Oger Ltd ("Saudi Oger"), because of its controlling ownership in Oger Telecom.

Within the scope of the process, which is carried out in relation to takeover of OTAŞ's 55% shares in our Company, Türk Telekom, by a special purpose vehicle ("SPV"), which the creditor banks of OTAŞ will be shareholders, a notification was made to our company by some of the creditor banks. In this respect, it was requested that the permission, notification and approval transactions, which are required to be carried out by Türk Telekom and its subsidiaries, before the related authorities pursuant to the legislation, which Türk Telekom and its subsidiaries are subject to, should be performed. Within this context, our Company has made a permission application to the Information and Communication Technologies Authority ("ICTA") in accordance with the related legislation.

As per the regulatory disclosure made by Türk Telekom as of on 17 August 2018, ICTA resolved that; (1) Transfer of the 55% shares of our Company, Türk Telekom owned by OTAŞ to SPV, which the creditor banks of OTAŞ would be shareholders thereof, shall be approved, (2) Transfer of the shares of Türk Telekom, which holds 100% of the shares of TT MOBİL İletişim Hizmetleri AŞ, TTNET AŞ, 11818 Rehberlik ve Müşteri Hizmetleri AŞ and TT International Telekomünikasyon San. ve Tic. Ltd., which are authorized by ICTA, shall have no adverse consequence with regard to these companies.

As per the regulatory disclosure made by Türk Telekom on 29 August 2018, according to legal notification from the Ministry of Transport and Infrastructure, the takeover of OTAŞ's 55% shares in Türk Telekom, by SPV, which the creditor banks of OTAŞ would be shareholders, was approved by the Ministry of Treasury and Finance.

As per the regulatory disclosures of creditor banks of OTAŞ dated on 29 August 2018, 26 and 30 October 2018, the process which was carried out in relation to takeover of OTAŞ's 55% shares in Türk Telekom by SPV, which the creditor banks of OTAŞ would be shareholders, is ongoing.

1. REPORTING ENTITY (CONTINUED)

A concession agreement ("the Concession Agreement") was signed by the Company and Turkish Telecommunication Authority (now named the Information and Communication Technologies Authority ("ICTA") as at 14 November 2005. The Concession Agreement covers the provision of all kinds of telecommunication services, establishment of necessary telecommunications facilities and the use of such facilities by other licensed operators and the marketing and supply of telecommunication services for 25 years starting from 28 February 2001. The Concession Agreement will terminate on 28 February 2026 and the Company will transfer the entire infrastructure that has been used to provide telecommunication services to ICTA in working condition.

Türk Telekom has the right to apply to the ICTA fro renewal of the Türk Telekom Concession Agreement one year prior to the expiry of its term, with any such renewal to be granted at the discretion of the ICTA.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

(**) The title of Avea İletişim Hizmetleri A.Ş. was announced on 30 May 2018 by TT Mobil İletişim Hizmetleri A.Ş.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

1. REPORTING ENTITY (CONTINUED)

The details of the Company's joint operation as at 30 September 2018 and 31 December 2017 are as follows:

Name of Joint Operation	Place of incorporation and operation	Principal activity	Functional Currency	Effective ownership of the Company (%) 30 September 2018	31 December 2017
TT Mobil-Vodafone Evrensel İş Ortaklığı	Turkey	Internet/data services, infrastructure and wholesale voice services provider	Turkish Lira	51	51

Hereinafter, Türk Telekom and its subsidiaries and joint operations together will be referred to as "the Group".

The Group's principal activities include the provision of local, national, international and mobile telecommunication services, internet products and services, as well as call center and customer relationship management, technology and information management.

The Company's registered office address is Turgut Özal Bulvarı, 06103 Aydınlıkevler, Ankara.

The number of personnel subject to collective agreement as at 30 September 2018 is 10.809 (31 December 2017: 11.770) and the number of personnel not subject to collective agreement as at 30 September 2018 is 22.417 (31 December 2017: 22.732). The total number of personnel as at 30 September 2018 and 31 December 2017 are 33.226 and 34.502, respectively.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

The main accounting policies used for preparing the Group's consolidated financial statements are stated below:

2.1 Basis of presentation of the interim condensed consolidated financial statements

a) Statement of compliance with TAS

The accompanying consolidated financial statements are based in accordance with Turkish Accounting Standards ("TAS") issued by Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA") as set out in the Communiqué serial II, No: 14.1 announcement of Capital Markets Board ("CMB") dated 13 June 2013 related to "Capital Market Communiqué on Principles Regarding Financial Reporting" ("Communiqué") which is published in official gazette, no 28676. TAS is composed of Turkish Accounting Standards, Turkish Financial Reporting Standards, appendixes and interpretations.

For the nine month period ended 30 September 2018, the Group prepared its interim condensed consolidated financial statements in accordance with the Turkish Accounting Standard No.34 "Interim Financial Reporting". Interim condensed consolidated financial statements of the Group do not include all the information and disclosures required in the annual financial statements, therefore should be read in conjunction with the Group's annual financial statements, as at 31 December 2017.

b) Preparation of financial statements

The accompanying consolidated financial statements and notes are presented in accordance with the illustrative financial statements published by CMB on 7 June 2013.

The accompanying consolidated financial statements are approved by the Company's Board of Directors on 6 November 2018. General Assembly and related legal institutions have the right to correct these financial statements and statutory financial statements.

The Group has initially applied TFRS 15 and TFRS 9 with a date of initial application at 1 January 2018. In accordance with the transition method applied comperative information is not restated.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.1 Basis of presentation of the interim condensed consolidated financial statements (continued)

c) Correction of financial statements during the hyperinflationary periods

CMB, with its resolution dated 17 March 2005, announced that all publicly traded entities operating in Turkey was not obliged to apply inflationary accounting effective from 1 January 2005. In accordance with this resolution, TAS 29 "Financial Reporting in Hyperinflationary Economies" is not applied to the consolidated financial statements since 1 January 2005.

d) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the property, plant and equipment and investment property acquisitions prior to 1 January 2000 for which the deemed cost method was applied in accordance with TAS 29 "Financial Reporting in Hyperinflationary Economies", derivative financial instruments and bills, bonds and notes issued which have been reflected at their fair values.

The methods used to measure the fair values are discussed further in Note 2.1 (f).

e) Functional and presentation currency

Excluding the subsidiaries incorporated outside of Turkey, functional currency of all entities' included in consolidation is Turkish Lira ("TL") and they maintain their books of account in TL in accordance with Turkish Commercial Code, Tax Legislation and the Uniform Chart of Accounts issued by the Ministry of Finance.

Functional currencies of the subsidiaries are presented in Note 1.

The consolidated financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with the Turkish Accounting Standards published by the POA and are presented in TL.

Additional paragraph for convenience translation to English:

The accounting principles described in Note 2 (defined as Turkish Accounting Standards/Turkish Financial Reporting Standards) to the accompanying consolidated financial statements differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") with respect to the application of inflation accounting, classification of some income statement items and also for certain disclosures requirement of the POA.

f) Significant accounting assessments, estimates and assumptions

In order to prepare financial statements in accordance with TMS, certain assumptions affecting notes to the financial statements and critical accounting estimations related to assets, liabilities, contingent assets and contingent liabilities are required to be used. Although these estimations are made upon the best afford of the management by interpreting the cyclical circumstances, actual results may differ from the forecasts. Issues that are complex and needs further interpretation, which might have a critical impact on financial statements. There is no change in judgments and critical accounting estimates compared to prior year used in interim condensed consolidated financial statements as 30 September 2018.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.1 Basis of presentation of the interim condensed consolidated financial statements (continued)

f) Significant accounting assessments, estimates and assumptions (continued)

Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

***i*) Trade and other receivables**

The fair value of trade and other receivables is estimated as the present value of future cash flows discounted at the market rate of interest at the reporting date. Short-term receivables with no stated interest rate are measured at the original invoice amount if the effect of discounting is immaterial. This fair value is determined at initial recognition and at the end of each reporting period for disclosure purposes.

***ii*) Derivatives**

The fair value of interest rate swaps and forward exchange contracts are based on broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

***iii)* Bills, bonds and notes issued**

The fair values of bills, bonds and notes issued are determined with reference to their quoted price at the measurement date. Subsequent to initial recognition, the fair values of bills, bonds and notes issued are determined based on their quoted price in the stock market they are exchange.

***iv*) Other non-derivative financial liabilities**

Other non-derivative financial liabilities are measured at fair value, at initial recognition and for disclosure purposes, at each annual reporting date. Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the measurement date.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.2 Summary of significant accounting policies

Standards issued but not yet effective and not early adopted as of 30 September 2018

Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, after the new standards and interpretations become in effect.

TFRS 16 Leases

On 13 January 2016, POA issued the new leasing standard which will replace IAS 17 Leases, IFRIC 4 Determining Whether an Arrangement Contains a Lease, SIC 15 Operating Leases – Incentives, and SIC 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease and consequently changes to IAS 40 *Investment Properties*. TFRS 16 *Leases* eliminates the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, there is a single, on-balance sheet accounting model that is similar to current finance lease accounting. Lessor accounting remains similar to current practice. The standard is effective for annual periods beginning on or after 1 January 2019, with early adoption permitted provided that an entity also adopts TFRS 15 Revenue from Contracts with Customers. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of TFRS 16.

TFRS Interpretation 23 –Uncertainty Over Income Tax Treatments

On 24 May 2018, POA issued TFRS Interpretation 23 Uncertainty over Income Tax Treatments to specify how to reflect uncertainty in accounting for income taxes. It may be unclear how tax law applies to a particular transaction or circumstance, or whether a taxation authority will accept a company's tax treatment. TAS 12 Income Taxes specifies how to account for current and deferred tax, but not how to reflect the effects of uncertainty. TFRS Interpretation 23 provides requirements that add to the requirements in TAS 12 by specifying how to reflect the effects of uncertainty in accounting for income taxes. The Interpretation is effective from 1 January 2019 with earlier application is permitted. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of TFRS Interpretation 23.

Amendments to TFRS 9 - Prepayment features with negative compensation

On December 2017, POA has issued amendments to TFRS 9 to clarify that financial assets containing prepayment features with negative compensation can now be measured at amortised cost or at fair value through other comprehensive income (FVOCI) if they meet the other relevant requirements of TFRS 9. Under TFRS 9, a prepayment option in a financial asset meets this criterion if the prepayment amount substantially represents unpaid amounts of principal and interest, which may include 'reasonable additional compensation' for early termination of the contract. The amendments are effective for periods beginning on or after 1 January 2019, with earlier application permitted.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the amendments to TFRS 9.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.2 Summary of significant accounting policies (continued)

Standards issued but not yet effective and not early adopted as of 30 September 2018 (continued)

Standards issued but not yet effective and not early adopted (continued)

Amendments to TAS 28- Long-term *Interests in Associates and Joint Ventures*

On December 2017, POA has issued amendments to TAS 28 to clarify that entities also apply TFRS 9 to other financial instruments in an associate or joint venture to which the equity method is not applied. These include long-term interests that, in substance, form part of the entity's net investment in an associate or joint venture. An entity applies IFRS 9 to such long-term interests before it applies related paragraphs of TAS 28. In applying TFRS 9, the entity does not take account of any adjustments to the carrying amount of long-term interests that arise from applying TAS 28. The amendments are effective for periods beginning on or after 1 January 2019, with earlier application permitted.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the amendments to TAS 28.

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by POA

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued to TFRS by the POA, thus they do not constitute part of TFRS. Such standards, interpretations and amendments that are issued by the IASB but not yet issued by the POA are referred to as IFRS or IAS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

Annual Improvements to IFRSs 2015-2017 Cycle

Improvements to IFRSs

IASB issued Annual Improvements to IFRSs - 2015–2017 Cycle. The amendments are effective as of 1 January 2019. Earlier application is permitted. The Group does not expect that application of these improvements to IFRSs will have significant impact on its consolidated financial statements.

IFRS 3 Business Combinations and *IFRS 11 Joint Arrangements*

IFRS 3 and IFRS 11 are amended to clarify how a company accounts for increasing its interest in a joint operation that meets the definition of a business. If a party obtains control, then the transaction is a business combination achieved in stages and the acquiring party remeasures the previously held interest at fair value. If a party maintains (or obtains) joint control, then the previously held interest is not remeasured.

IAS 12 Income Taxes

IAS 12 is amended to clarify that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognised consistently with the transactions that generated the distributable profits – i.e. in profit or loss, other comprehensive income (OCI) or equity.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.2 Summary of significant accounting policies (continued)

Improvements to IFRSs (continued)

IAS 23 Borrowing Costs

IAS 23 is amended to clarify that the general borrowings pool used to calculate eligible borrowing costs excludes only borrowings that specifically finance qualifying assets that are still under development or construction. Borrowings that were intended to specifically finance qualifying assets that are now ready for their intended use or sale – or any non-qualifying assets – are included in that general pool.

Amendments to IAS 19 - Plan Amendment, Curtailment or Settlement

On 7 February 2018, IASB issued Plan Amendment, Curtailment or Settlement (Amendments to IAS 19). The amendments clarify the accounting when a plan amendment, curtailment or settlement occurs. A company now uses updated actuarial assumptions to determine its current service cost and net interest for the period; and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the plan and is dealt with separately in other comprehensive income (OCI). The amendments are effective for periods beginning on or after 1 January 2019, with earlier application permitted.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the amendments to IAS 19.

The revised Conceptual Framework

The revised Conceptual Framework issued on 28 March 2018 by the IASB. The Conceptual Framework sets out the fundamental concepts for financial reporting that guide the Board in developing IFRS Standards. It helps to ensure that the Standards are conceptually consistent and that similar transactions are treated the same way, so as to provide useful information for investors, lenders and other creditors. The Conceptual Framework also assists companies in developing accounting policies when no IFRS Standard applies to a particular transaction, and more broadly, helps stakeholders to understand and interpret the Standards. The revised Framework is more comprehensive than the old one – its aim is to provide the Board with the full set of tools for standard setting. It covers all aspects of standard setting from the objective of financial reporting, to presentation and disclosures. For companies that use the Conceptual Framework to develop accounting policies when no IFRS Standard applies to a particular transaction, the revised Conceptual Framework is effective for annual reporting periods beginning on or after 1 January 2020, with earlier application permitted.

2.3. Change in accounting policy

Except for the changes below, the accounting policies applied in these interim consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2017.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3. Change in accounting policy (continued)

a. TFRS 15 Revenue from contracts with customers

TFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced TAS 18 *Revenue*, TAS 11 *Construction Contracts* and related interpretation.

The Group has initially adopted TFRS 15 *Revenue from Contracts with Customers* with a date of initial application of 1 January 2018. As a result, the Group has changed its accounting policy for revenue recognition as detailed below.

The Group has applied TFRS 15 using the cumulative effect method – by recognizing the cumulative effect of initially applying TFRS 15 as an adjustment to the opening balance of equity at 1 January 2018. Therefore, the comparative information presented for 2017 has not been restated and continues to be as previously reported under TAS 18 and TAS 11 and related interpretations. The details of the significant changes and quantitative impact of the changes are set out below.

i) Sales of equipment and other telecommunication services in bundled packages

For equipment sold in bundled packages, the Group previously limited revenue to the amount that was not contingent on the provision of future telecommunication services. Under TFRS 15, the total consideration in the contract is allocated to all products and services – e.g. equipment, mobile telecommunication services, and connection fees – based on their stand-alone selling prices. The stand-alone selling prices are determined based on the list prices at which the Group sells those products and services on their own in separate transactions. For items that are not sold separately the Group estimates stand-alone selling prices using the expected cost plus a margin approach.

For those contracts including sales of a distinct equipment or distinct connection fee, a lower proportion of consideration is allocated to equipment or connection fees and therefore revenue is recognized later under TFRS 15 than under TAS 18. The impact of these changes on items other than revenue is a decrease in income accruals.

Previously, the Group recognized revenue for connection fees immediately when connection services were provided and the cost of connection was also recognized immediately as an expense. Under TFRS 15, connection fees that are assessed as distinct are recognized as revenue. Connection fees for activities that are an improvement to or an extension of the Group's own network, rather than a transfer of goods or services to the customers are determined as not distinct and no separate revenue is recognized. For distinct connection fees revenue recognized is measured based on their stand-alone selling prices. The stand-alone selling prices of connection fees are estimated based on expected cost plus a margin approach. For connection fees that are not distinct, no portion of consideration is allocation to non-distinct connection fees, and therefore revenue is recognized later under TFRS 15 than under TAS 18. The impact of these changes on items other than revenue is a decrease in income accruals.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3. Change in accounting policy (continued)

a. TFRS 15 Revenue from contracts with customers (continued)

ii) Subscriber acquisition and retention costs

Subscriber acquisition costs include commissions and premiums incurred for acquisition and retention of subscribers.

The Group previously recognized commissions and premiums incurred for acquisitions/retentions in the consolidated statement of profit or loss during the year they are incurred. Under TFRS 15, the Group capitalizes these commission and premiums if these costs are incremental with obtaining a contract with a customer and if they are expected to be recovered. Under TFRS 15, subscriber acquisition and retention costs are capitalized as intangible assets are amortized in marketing, sales and distribution expenses. Subscriber acquisition costs are amortized consistently during subscriber life cycle and subscriber retention costs are amortized consistently during the the renewal period.

iii) Significant financing component

To estimate the transaction price in a contract, the Group adjusts the promised amount of consideration to reflect the time value of money if the contract contains a significant financing component. Significant financing component exists if the timing of payments agreed to by the parties to the contract (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. The discount rate used is the rate that would be reflected in a separate financing transaction between the Group and the customer at a contract inception.

Indefeasible right of use ("IRU") contracts of the Group are adjusted for significant financing component. The Group previously was not adjusting for significant financing component under TAS 18. Under TFRS 15, consideration is adjusted to reflect the financing component of the transaction and related financing component is recognized as interest expense in financial expenses and presented separately from revenue from customers in profit or loss.

iv) Impacts on the consolidated financial statements

The following table summarizes the impact, net of tax, of transition to TFRS 15 on retained earnings at 1 January 2018:

	Impact of adopting TFRS 15 at 1 January 2018
Retained earnings	
Sales of equipment in bundled packages and connection fee	(204.412)
Subscriber acquisition/retention costs	843.203
Significant financing component	(45.607)
Related tax	(43.406)
Currency translation difference	2.468
Impact at 1 January 2018	**552.246**

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3 Changes in accounting policies (continued)

b. TFRS 9 Financial instruments

The Group has initially adopted TFRS 9 Financial Instruments issued in July 2014 with a date of initial application of 1 January 2018. TFRS 9 sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items.

The following table summarizes the impact, net of tax, of transition to TFRS 9 on retained earnings and other comprehensive income at 1 January 2018:

	Impact of adopting TFRS 9 at 1 January 2018
Retained earnings /(losses)	
Recognition of expected credit losses under TFRS 9	(263.230)
Changes in carrying amount of liabilities measured at FVTPL at initial apllication in accordance with TFRS 9	156.390
Related tax	(13.912)
Opening balance under TFRS 9 (1 January 2018)	**(120.752)**

	Impact of adopting TFRS 9 at 1 January 2018
Other comprehensive income	
Changes in carrying amount of liabilities measured at FVTPL at initial apllication in accordance with TFRS 9	(228.884)
Related tax	45.777
Opening balance under TFRS 9 (1 January 2018)	**(183.107)**

i. Classification of financial assets and financial liabilities

TFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The classification of financial assets under TFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. TFRS 9 eliminates the previous TAS 39 categories of held to maturity, loans and receivables and available for sale. Under TFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

The adoption of TFRS 9 has not had a significant effect on the Group's accounting policies for financial liabilities except for bills, bonds and notes issued.

As at 1 January 2018, the Group has used the option to reclassify its bills, bonds and notes issued on initial application as measured at fair value through profit or loss as allowed in transition requirements of TFRS 9 which is permitted when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

For an explanation of how the Group classifies and measures bills, bonds and notes issued and accounts for related gains and losses under TFRS 9, see Note 2.4.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3 Changes in accounting policies (continued)

b. TFRS 9 Financial instruments (continued)

i. Classification of financial assets and financial liabilities (continued)

The effect of adopting TFRS 9 on the carrying amounts of financial assets at 1 January 2018 relates solely to the new impairment requirements, as described further below.

For an explanation of how the Group classifies and measures financial assets and accounts for related gains and losses under TFRS 9, see Note 2.4.

ii. Impairment of financial assets

TFRS 9 replaces the 'incurred loss' model in TAS 39 with an 'expected credit loss' ("ECL") model. The new impairment model applies to financial assets measured at amortized cost and contract assets, but not to investments in equity instruments. The details of the new model under TFRS 9 is disclosed in Note 2.4.

Impact of the new impairment model

As at 1 January 2018, the effect of impairment allowance under TFRS 9 is as follows:

Loss allowance as at 31 December 2017 under TAS 39	**(2.864.484)**
Additional impairment recognized at 1 January 2018 on:	
- Trade receivables	(24.876)
- Other assets and receivables	(17.568)
- Provision for expected credit losses on loan commitments	(220.786)
Loss allowance as at 1 January 2018 under TFRS 9	**(3.127.714)**

iii. Hedge accounting

When initially applying TFRS 9, the Group may choose as its accounting policy to continue to apply the hedge accounting requirements of TAS 39 instead of the requirements in TFRS 9. The Group has not elected to adopt the new general hedge accounting model in TFRS 9. Accounting policies applied in preparation of condensed interim consolidated financial statements as at 31 December 2017 have not changed.

As at 1 July 2018, the Group has elected to adopt the new general hedge accounting model in TFRS 9. This requires the Group to ensure that hedge accounting relationships are aligned with its risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness.

The Group uses forward foreign exchange contracts to hedge the variability in cash flows arising from changes in foreign exchange rates relating to foreign currency borrowings and bill and bond issuance. The Group uses cross currency swaps that are used as hedging instruments in cash flow hedge transactions only in the fair value changes of the spot value in the hedging relationship. The effective portion of changes in fair value of hedging instruments is accumulated in a cash flow hedge reserve as a separate component of equity.

Under TAS 39, time value of option contracts were recognized in profit or loss at the time of change in fair value. However, under TFRS 9, time value of options are accounted for as a cost of hedging; they are recognised in OCI and accumulated in a cost of hedging reserve as a separate component within equity.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3 Changes in accounting policies (continued)

b. TFRS 9 Financial instruments (continued)

iii. Hedge accounting (continued)

Under TAS 39, for all cash flow hedges, the amounts accumulated in the cash flow hedge reserve were reclassified to profit or loss as a reclassification adjustment in the same period as the hedged expected cash flows affected profit or loss. The same approaches also apply under TFRS 9 to the amounts accumulated in the cost of hedging reserve.

Hedge Ineffectiveness

The Group monitors source of ineffectiveness over the course of the hedge relation period. The change in the fair value of the hedged item will be calculated using the hypothetical derivative method.

The entire fair value of the participating cross currency and cross currency swap including currency basis was designated as the hedging instrument. The hypothetical derivative is modelled to exclude the currency basis. Hedge ineffectiveness is determined by comparing the actual derivative which includes currency basis to the hypothetical derivative which does not include currency basis.

There is 'an economic relationship' between the hedged item and the hedging instrument as the underlying of the hedging instrument matches, and aligned with, the hedged risk so that the hedging instrument and the hedged item are expected to move in opposite directions as a result of a change in the hedged risk.

The effect of credit risk does not 'dominate the value changes' that result from that economic relationship. The impact of changes in credit risk are not magnitude such that it dominates the value changes, even if there is an economic relationship between the hedged item and hedging instrument.

The hedge ratio, between the amount of hedged item and the amount of hedging instrument is 1:1.

Effect arising from application of TFRS 9 hedge accounting requirements

The application of hedging approach in accordance with TFRS 9 does not have any impact on retained earnings.

iv. Transition

Changes in accounting policies resulting from the adoption of IFRS 9 (2014) have been applied retrospectively, except as described below.

- Comparative periods have not been restated for prior periods. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of TFRS 9 are recognized in retained earnings as at 1 January 2018. Accordingly, the information presented for 2017 does not reflect the requirements of TFRS 9 and therefore is not comparable to the information presented for 2018 under TFRS 9.

- The following assessments have been made on the basis of the facts and circumstances that existed at the date of initial application.

    - The determination of the business model within which a financial asset is held.

    - The designation of certain investments in equity instruments not held for trading as at FVOCI.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3 Changes in accounting policies (continued)

b. TFRS 9 Financial instruments (continued)

v. Classification of financial assets and liabilities on the date of initial application

The following table shows the original measurement categories under TAS 39 and the new measurement categories under TFRS 9 for each class of the Group's financial assets and financial liabilities as at 1 January 2018:

	Note	Original classification under TAS 39	New classification under TFRS 9	Original carrying amount under TAS 39	New carrying amount under TFRS 9
Financial assets					
Cash and cash equivalents	6	Loans and receivables	Amortised cost	4.100.204	4.100.204
Trade and other receivables (including related parties)	8,9	Loans and receivables	Amortised cost	4.999.469	4.974.593
Financial investments		Assets held for sale	Changes in fair value attributable to other comprehensive income	11.840	11.840
Other assets		Loans and receivables	Amortised cost	191.211	173.643
Financial liabilities					
Bank borrowings	7	Other financial liabilities	Other financial liabilities	12.732.751	12.732.751
Bills, bonds and notes issued	7	Other financial liabilities	Fair value through profit or loss	3.756.388	3.828.882
Financial leasing liabilities		Other financial liabilities	Other financial liabilities	2.599	2.599
Interest rate swaps	17	Fair value – hedging instruments	Fair value – hedging instruments	117.389	117.389
Trade payables and provisions (including related parties)	8,9	Other financial liabilities	Other financial liabilities	5.369.485	5.148.699

The Group's accounting policies on the classification of financial instruments under TFRS 9 are set out in Note 2.4. The application of these policies resulted in the reclassifications set out in the table above and explained below.

- Trade and other receivables that were classified as loans and receivables under TAS 39 are classified at amortized cost under TFRS 9. An increase of TL 42.444 thousand in the allowance for impairment was recognized in opening retained earnings at 1 January 2018 on transition to TFRS 9.
- In accordance with TFRS 9, expected credit losses are recognized for the guarantees given for borrowings of distributors which are utilized in financing of equipment purchases that will be sold to Group's customers as part of commitment sales. As at 1 January 2018, provision amounting to TL 220.786 is recognized in consolidated financial statements.
- Financial investments that were classified as available for sale financial assets under TAS 39 are now classified at FVOCI under TFRS 9. Those assets are comprised of 6,84 % share of the Group's share in Cetel Telekom İletişim Sanayi ve Ticaret Anonim Şirketi ("Cetel"). Cost of Cetel is used as a measure for its fair value since management has insufficient recent information to measure fair value.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.3 Changes in accounting policies (continued)

b. TFRS 9 Financial instruments (continued)

v. Classification of financial assets and liabilities on the date of initial application (continued)

- Bills, bonds and notes issued that were classified as other financial liabilities under TAS 39 are classified as FVTPL under TFRS 9 as permitted in transition requirements. The increase in carrying value of bills, bonds and notes is recognized in retained earnings amounting to TL 156.390 and in other comprehensive income amounting to negative TL 228.884 as at 1 January 2018.

c. Property, plant and equipment

Group has commenced measuring its lands using the revaluation model compliant with TAS 16 starting from 30 September 2018 which have previously been measured under the cost model. In accordance with the methods in TAS 16 related to property, plant and equipment, since there is a change in accounting policies to carry the assets with their revalued values, initial application of this policy change is applied prospectively in accordance with the requirements of TAS 8. The details of the accounting policy change regarding the measurement of lands are disclosed in Note 2.4. The effect of the change on interim condensed consolidated financial statements as at 30 September 2018 is disclosed in Note 10.

2.4 Significant accounting policies

The details of new accounting policies adopted as at 1 January 2018 and differences from previous accounting policies are presented below. Except for the changes explained below and in Note 2.3, the accounting policies applied in these interim consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2017.

a. <u>Revenues</u>

The Group has applied TFRS 15 using the cumulative effect method and therefore the comparative information has not been restated and continues to be reported under TAS 18 and TAS 11. The details of accounting policies under TAS 18 and TAS 11 are disclosed separately if they are different from those under TFRS 15 and the impact of changes is disclosed in Note 2.3.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control over a product or service to a customer.

For the period ended 31 December 2017 ("comparative period"), revenue was recognized when the significant risks and rewards of ownership had been transferred to the customer, recovery of the consideration was probable, the associated costs and possible return of the goods and services could be estimated reliably, there was no continuing management involvement with the goods, and the amount of revenue could be measured reliably. Revenue was measured at the fair value of the consideration received or receivable and represented amounts receivable for goods and services provided in the normal course of business, net of discounts and sales related taxes. Service revenues were recorded at the time services were rendered.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

a. Revenues (continued)

i) Fixed line revenues

Revenues from fixed-line telecommunication services like network access, local usage, domestic and international long distance and infrastructure leases are recognized on an accrual basis as services are provided.

Connection fees that are assessed as distinct are recognized as revenue. Connection fees for activities that are an improvement to or an extension of the Group's own network, rather than a transfer of goods or services to the customer are determined as not distinct and no separate revenue is recognized. For distinct connection fees in a bundle, revenue recognized is measured based on their stand-alone selling prices. The stand-alone selling prices of connection fees are estimated based on expected cost plus a margin approach. Distinct connection fees are immediately recognized as revenue when connection services are provided and the cost of connection is also recognized immediately as an expense.

Revenues from sale of indefeasible right of use contracts, which are long term capacity/line rental arrangements, are accounted over the term of the contract.

ii) Mobile revenues

Revenues generated from mobile telecommunication services such as outgoing and incoming traffic, roaming revenues, revenues from value added services and monthly fees which are recognized at the time services are rendered. With respect to prepaid outgoing revenues, the Group generally collects cash in advance by selling scratch cards to dealers and distributors. In such cases, the Group does not recognize revenues until the subscribers use the service and present such amounts under deferred revenues in the consolidated financial statements.

The Group recognizes content revenue based on the agreement between the Group and the content providers. As the Group is the primary obligor of the service, the revenue received from the subscribers is presented on gross basis and the portion paid to the content providers is recognized as operating expense.

iii) Equipment sale revenues

Revenues from sales of phone device, modem and other network equipment are recorded as revenue when control over a product or service is transferred to a customer.

For bundled packages, the Group accounts for individual products and services separately if they are distinct – i.e. if a product or service is separately identifiable from other items in the bundled package and if a customer can benefit from it either on its own or together with other resources that are readily available to the customer. The consideration is allocated between distinct products and services in a bundle based on their stand-alone selling prices. The stand-alone selling prices are determined based on the list prices at which the Group sells those products and services separately. For items that are not sold separately the Group estimates stand-alone selling prices using the expected cost plus a margin approach. Equipment revenues are presented in other revenues. Cost of products and services are recognized as expense when related revenue is recognized.

iv) TV revenues

Revenues from TV subscriptions are charged to contract customers on a monthly basis. Revenues are invoiced and recorded as part of a periodic billing cycle, and are recognized as the services are provided. Pay-per-view revenue is recognized when the movie is rented. Advertising revenue is recognized as the commercials are aired.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

a. Revenues (continued)

v) Subscriber acquisition costs

Subscriber acquisition costs include commissions and premiums incurred for acquisition and retention of subscribers.

The Group capitalizes these commission and premiums as incremental costs of obtaining a contract with a customer and if they are expected to be recovered. Subscriber acquisition costs are amortized consistently during the subscriber life cycle and subscriber retention costs are amortized consistently during the renewal period and amortization expense is recognized in marketing, sales and distribution expenses.

vi) Significant financing component

To estimate the transaction price in a contract, the Group adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. Significant financing component exists if the timing of payments agreed to by the parties to the contract (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer.

Indefeasible right of use ("IRU") contracts of the Group are adjusted for significant financing component. For bundled contracts where the control of equipment is transferred to the customer upfront but collection is made in installments, no significant financing component is recognized based on materiality considerations.

b. Finance income and finance costs

The Group's finance income and finance costs include:

- interest income;
- interest expense;
- transaction cost;
- coupon payments of bond;
- gains and losses on hedging instruments recognized in profit or loss;
- foreign currency gains or losses on financial assets and financial liabilities.

Interest income or expense is recognized using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Borrowing costs that cannot be matched with acquisition, construction or production of an asset are recognized in profit or loss by using effective interest rate.

Rediscount, interest and foreign exchange gains and losses arising from trading transactions are recognized in other operating income and expense.

Accounting for significant financing component is disclosed in detail in Note 2.4.(a).

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments

i. Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii. Classification and subsequent measurement

Financial assets – Policy applicable from 1 January 2018

On initial recognition, a financial asset is classified as measured at: amortized cost, FVOCI – equity investment, or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis. The Group holds 6,84 % of shares of Cetel as equity investment and has elected to present changes in fair value of Cetel in other comprehensive income. Cost of Cetel is used as a measure for its fair value since management has insufficient more recent information to measure fair value.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

ii. Classification and subsequent measurement (continued)

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets (Note 17) and equity investments measured at FVTPL.

On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment – Policy applicable from 1 January 2018

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales.

Financial assets that are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest – Policy applicable from 1 January 2018

'Principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest – Policy applicable from 1 January 2018 (continued)

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Trade receivables and other receivables meet solely payments of principal and interest test since principal is the present value of the expected cash flows. Those receivables are managed in line with the held to collect business model.

Financial assets: Subsequent measurement and gains and losses – Policy applicable from 1 January 2018

Financial assets at FVTPL	Financial assets at FVTPL are comprised of derivatives. These assets are subsequently measured at fair value. Net gains and losses, including any interest, are recognized in profit or loss.
Financial assets at amortized cost	Financial assets at amortized cost are comprised of cash and cash equivalents, trade receivables, other receivables and other assets. These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.
Equity investments at FVTPL	Equity investments at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Equity investments at FVOCI	Equity investments at FVOCI include the Group's 6,84% of share of Cetel. These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Policy applicable before 1 January 2018

Non-derivative financial assets

The Group initially recognized loans and receivables and deposits on the date that they were originated. All other financial assets were recognized initially on the trade date at which the Group became a party to the contractual provisions of the instrument.

Non-derivative financial assets were comprised of loans and receivables and cash and cash equivalents and financial investments.

Loans and receivables

Loans and receivables were financial assets with fixed or determinable payments that were not quoted in an active market. Such assets were recognized initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, loans and receivables were measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables were comprised of cash and cash equivalents, and trade and other receivables, receivables from related parties and financial investments.

Receivables from customers in relation to a component of revenue were recognized as trade receivables in financial statements. Receivables that were not classified as trade receivables and were not financial investments were recognized as other receivables.

Cash and cash equivalents

Cash and cash equivalents were comprised of cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and were used by the Group in the management of its short-term commitments.

Cash and cash equivalents were comprised of cash, cash at banks and other cash and cash equivalents.

Project and reserve accounts were included in other current assets. The use of project and reserve accounts were subjected to the approval of the lender in accordance with the financial contracts.

Financial investments

As of 31 December 2017, the Group accounted its 6,84% shareholding in Cetel as financial investments in the consolidated financial statements. As of 31 December 2017, Cetel was carried at cost after deducting impairment, if any and accounted under financial investments in the consolidated financial statements because the Company did not have significant influence at Cetel.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Policy applicable before 1 January 2018 (continued)

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. The Group does not have any financial liabilities at FVTPL except for derivatives and bills, bonds and notes issued.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Non-derivative financial liabilities

The Group initially recognized debt securities issued and subordinated liabilities on the date that they were originated. All other financial liabilities were recognized initially on the trade date, which was the date that the Group becomes a party to the contractual provisions of the instrument.

The Group classified non-derivative financial liabilities into the other financial liabilities category except for bills, bonds and notes issued. Such financial liabilities were recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities were measured at amortized cost using the effective interest method.

Other financial liabilities were comprised of loans, trade and other payables, payables to related parties and other payables.

Bills, bonds and notes issed are measured at fair value through profit or loss. The amount of change in the fair value of the bills, bonds and notes issued that is attributable to changes in the credit risk of that liabilityis recognized in other comprehensive income and the remaining amount of change in the fair value is recognized in profit or loss.

Trade payables were payables to third parties in relation to their capacity as suppliers. Payables stemming from transactions with parties that were not suppliers or customers which were not classified as trade payables and were not a result of financing operations were recognized as other payables.

When a financial instrument gave rise to a contractual obligation on the part of the Group to deliver cash or another financial asset or to exchange another financial instrument under conditions that were potentially unfavorable, it was classified as a financial liability. The instrument was equity instrument if, the following were met:

a) The instrument included no contractual obligation to deliver cash or another financial asset to another entity; or to exchange financial assets or financial liabilities with another entity under conditions that were potentially unfavorable to the Group.

b) If the instrument would or might be settled in the Group's own equity instruments, it was a non-derivative that included no contractual obligation for the Group to deliver a variable number of its own equity instruments; or a derivative that would be settled only by the Group exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

iii. Derecognition

Derecognition – Policy applicable from 1 January 2018

Financial assets

The Group derecognized a financial asset when the contractual rights to the cash flows from the asset expired, or it transferred the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset were transferred. Any interest in such transferred financial assets that was created or retained by the Group was recognized as a separate asset or liability.

Financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

Derecognition – Policy applicable before 1 January 2018

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in such transferred financial assets that is created or retained by the Group is recognized as a separate asset or liability.

The Group derecognized a financial liability when its contractual obligations were discharged, cancelled or expired.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

v. Impairment

Policy applicable from 1 January 2018

Financial instruments and contract assets

The Group recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- contract assets (as defined in TFRS 15).

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

v. Impairment (continued)

Policy applicable from 1 January 2018 (continued)

Financial instruments and contract assets

Under TFRS 9, loss allowances are measured on either of the following bases:

- Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument; and
- 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured as 12-month ECL:

- bank balances for which credit risk has not increased significantly since initial recognition.

Loss allowances for trade receivables, other receivables, other assets and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due.

The Group considers bank balances to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

12-month expected credit losses are that result from possible default events within the 12 months after the reporting date.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

v. Impairment (continued)

Policy applicable from 1 January 2018 (continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls.

ECLs are discounted at the effective interest rate of the financial asset.

For trade receivables, other receivables, other assets and contract assets the Group applies the simplified approach to providing for expected credit losses prescribed in TFRS 9, which requires the use of the lifetime expected loss provision for all trade receivables. The Group performed the calculation of ECL rates separately for individual, corporate, public and wholesale customers. The ECLs were calculated based on actual credit loss experience over the past seven years.

Exposures within each group were segmented based on common credit risk characteristics such as delinquency status.

Actual credit loss experience was adjusted to reflect differences between economic conditions during the period over which the historical data was collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. Future collection performance of receivables are estimated by considering general economic conditions to incorporate forward looking information to the expected credit loss calculations.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial re-organization; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of impairment in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Impairment losses related to trade and other receivables, including contract assets, are presented separately in the statement of profit or loss. As a result, the Group reclassified impairment losses amounting to TL 334.947, recognized under TAS 39, from 'general administrative expenses' to 'impairment loss on trade and other receivables, including contract assets' in the interim condensed consolidated statement of profit or loss for the six months period ended 30 September 2017.

Impairment losses on other financial assets are presented under 'general administrative expenses', similar to the presentation under TAS 39, and not presented separately in the interim condensed consolidated statement of profit or loss due to materiality considerations.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

v. Impairment (continued)

Policy applicable before 1 January 2018

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.
Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. Where trade receivables, other receivables, other assets and contract assets have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

At each balance sheet date, The Group assessed whether a financial asset or group of financial assets were impaired. When an objective evidence existed which represented that an impairment loss occurred in the receivables and loans stated as its amortized cost or the investments held until their maturity, amount of the loss has been determined as the difference between the current value calculated by discounting the estimated cash flows (excluding unrealized loan losses in the future) in the future based on the original interest rate (the effective interest rate calculated when initial accounting occurred) of the financial asset and the carrying value

Carrying value of the asset was decreased directly or by using a provision account. The related loss amount was recognized in income statement.

In the subsequent term, if the impairment loss decreased and the related decrease was objectively associated with a case (such as improvement at the credit rate of the obligator) occurred after the impairment loss had been recognized/accounted, the recognized impairment loss had been reversed directly or by using a provision account. The reverse could not cause carrying value of the related financial asset to be higher than the amortized value which arose as at the date of the reversal of impairment if the impairment was not recognized/accounted. The reversed amount was recognized/accounted in income statement.

Reserve was provided for the overdue uncollectible receivables. Also portfolio reserve was provided for the not due receivables based on certain criteria. The carrying amount of the receivable was reduced through use of an allowance account. Impaired debts were derecognized when they were assessed as uncollectible.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

c. Financial instruments (continued)

vi. Derivative financial instruments

Cash flow hedges

The Group has adopted TFRS 9 *Financial Instruments*, replacing TAS 39 in accordance with the risk management strategy and objectives. The high-level aim of the new hedge accounting model is that financial reporting will reflect more accurately how an entity manages its risk and the extent to which hedging mitigates those risks. Specifically, the new model aims to provide a better link between an entity's risk management strategy, the rationale for hedging and the impact of hedging on the financial statements.

The Group enters into participating cross currency swap transactions in order to hedge the changes in cash flows of floating and fixed rate financial instruments. While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under "other comprehensive income/expense items to be reclassified to profit or loss" in equity, and the ineffective portion is recognized in profit or loss. The changes recognized in equity is removed and included in profit or loss in the same period when the hedged cash flows effect the profit or loss. In addition, time value of options included in participating cross currency swaps are accounted for cost of hedging and recognized under other comprehensive income.

Under IFRS 9, a hedging relationship is discontinued in its entirety when as a whole it ceases to meet the qualifying criteria after considering the rebalancing of the hedging relationship. Voluntary discontinuation when the qualifying criteria are met is prohibited. Hedge accounting is discontinued when the risk management objective for the hedging relationship has changed, the hedging instrument expires or is sold, terminated or exercised, there is no longer an economic relationship between the hedged item and hedging instrument or when the effect of credit risk starts dominating the value changes that result from the economic relationship.

When the Group discontinues hedge accounting for a cash flow hedge it shall account for the amount that has been accumulated in the cash flow hedge reserve in accordance as follows;

-if the hedged future cash flows are still expected to occur, that amount shall remain in the cash flow hedge reserve until the future cash flows occur.

-if the hedged future cash flows are no longer expected to occur, that amount shall be immediately reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment. A hedged future cash flow that is no longer highly probable to occur may still be expected to occur. The amount recognized in OCI prior discontinuation will be reclassified from OCI to Profit and Loss, in accordance with the contractual cash flow of the hedged item.

The new hedge effectiveness testing model is prospective only and can be qualitative, depending on the complexity of the hedge. Effectiveness range 80%-125% in TAS 39 is replaced by an objectives-based test that focuses on the economic relationship between the hedged item and the hedging instrument, and the effect of credit risk on that economic relation.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (CONTINUED)

2.4 Significant accounting policies (continued)

d. Property, plant and equipment

Lands accounted as property, plant and equipment are measured at revalued amount. Revalued amount for lands is the fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are performed in regular intervals depending on the changes in fair values of the items of lands being revalued.

The increase in carrying amount of lands as a result of revaluation is recognized in components of other comprehensive income component.

When land's carrying amount declines as a result of a revaluation, this declined amount is recognized in profit or loss. However, the decline shall be recognized in other comprehensive income to the extent of any credit balance existing in the revaluation surplus. Thus, the relevant decline reduces the accumulated amount in equity under the heading of revaluation surplus.

2.5 Changes in accounting policies, comparative information and restatement of prior periods' financial statements

Amortization expenses amounting to TL 18.136 and TL 23.674 which were previously presented under marketing, sales and distribution expenses and general administrative expenses, respectively, in the consolidated profit or loss statement for the nine month period ended 30 September 2017, are reclassified to cost of sales as a results of amendments in cost mappings of one of the subsidiary of the Group.

Bills, bonds and notes issued that were measured at amortized cost in interim consolidated financial statements at 31 March 2018 and 30 June 2018 are measured at fair value through profit or loss in interim consolidated financial statements as at 30 September 2018. Consequently, the following changes were made in interim consolidated financial statements for the three month period ended 31 March 2018 and for the six month period ended 30 June 2018.

5. SEGMENT REPORTING

The Group has two main segments: Fixed line and GSM. Fixed line services are provided by Türk Telekom, TTNet, Argela, Innova, Sebit, AssisTT, TTES and TTINT Group whereas GSM service is provided by TT Mobil. Group management assesses segment performance over earnings before interest, tax, depreciation and amortization ("EBITDA"). EBITDA is calculated by adjusting the operating income by adding income/expense from investing activities, depreciation, amortization and impairment expenses and deducting exchange gains/losses, interest and rediscount income/ expenses on current accounts presented in other operating income and expense. Group management uses EBITDA as it is comparable with other companies in the sector. As Group management does not monitor Group's performance over geographical segments, geographical segment reporting is not presented. The segment results, balance sheet items are presented below:

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

The Company's guarantee, pledge and mortgage (GPM) position as at 30 September 2018 and 31 December 2017 is as follows:

	30 September 2018	**31 December 2017**
A. GPMs given on behalf of the Company's legal personality	2.545.117	2.031.024
B. GPMs given in favor of subsidiaries included in full consolidation	1.641.127	1.163.655
C. GPMS given by the Company for the liabilities of 3rd parties in order to run ordinary course of business	1.731.350	1.985.846
D. Other GPMs	–	–
i. GPMs given in favor of parent company	–	–
ii. GPMs given in favor of Company companies not in the scope of B and C above	–	–
iii. GPMs given in favor of third party companies not in the scope of C above	–	–
Total	**5.917.594**	**5.180.525**

Based on law 128/1 of Turkish Code of Obligations, the Group has given guarantee to distributors amounting to TL 1.731.350 for the financial obligation that would arise during the purchase of devices that will be sold as commitment sales by the Group (31 December 2017: TL 1.985.846).

14. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Other commitments

The Group has purchase commitments for sponsorships, advertising and insurance services at the amounting to USD 6.500 and 24 Euro equivalent to TL 39.103 (31 December 2017: TL 91.193) as at 30 September 2018. Payments for these commitments are going to be made in a 3-year period.

The Group has purchase commitments for fixed assets amounting to USD 124.227, Euro 21.832 and TL 308.457 equivalent to TL 1.204.342 (31 December 2017: TL 1.124.637) as at 30 September 2018.

Legal proceedings of Türk Telekom

Disputes between the Company and Municipalities

For contribution to the infrastructure investment and municipality share, municipalities filed against the Company and as at 30 September 2018, total provision including the nominal amount and legal interest charge which is amounting to TL 51.466 (31 December 2017: TL 50.258) is recognized.

Disputes between the Group and the ICTA

The Company has filed various lawsuits against ICTA. These lawsuits are related with the sector-specific and tariff legislations and legislations with respect to the other operators in the market. The sector-specific disputes generally stem from the objections with respect to the provisions of interconnection legislation, legislation with respect to telecommunication services and infrastructure. As of 30 September 2018, TL 17.927 provision provided for ICTA penalties and amounts to be repaid to customers due to ICTA resolutions (31 December 2017: TL 23.131).

14. COMMITMENTS AND CONTINGENCIES (CONTINUED)

TT Mobil's Treasury Share investigation

Law numbered 7061 "Legislation on Amendment of Certain Tax Legislation and Other Certain Legislation" was published on the Official Gazette numbered 30261 on 5 December 2017. According to mentioned Law, the provisional clause was added to Telegraph and Telephone Law numbered 406, which regulates restructuring provisions on contribution share to universal service, contribution share to authority expenses, administrative fee, radio fee, penalty fee and ancillaries thereof under dispute or under examination. In regard to the provisional clause, the Company has decided to utilize the restructuring provisions regarding treasury share, contribution share to universal service, contribution share to authority expenses, administrative fee, radio fee, penalty fee and ancillaries thereof which are the subject of finalized investigations

The Company, applied for restructuring on 24 January 2018 and terminated all the disputes, relating the subject, by waiving/accepting.

Within the scope of restructuring provisions, total amount calculated in this context is TL 312.181 which includes TL 210.463 principal and TL 101.718 interest (based on Domestic Producer Price Index, Yİ-UFE). Payments are made in six equal installments (plus deferred payment interest) in two-month periods beginning in January 2018.

The Company has recognized a provision amounting to 52.361 TL in the consolidated financial statements for additional treasury share claim as at 30 September 2018 (31 December 2017: TL 312.181).

The Ministry of Customs and Trade administrative fine

The Ministry of Customs and Trade conducted an audit at TT Mobil over the value added services that are provided to the subscribers and as a result of this inspection, an administrative fine amounting to TL 138.173 was imposed against TT Mobil based on the allegation that distant sales rules were disregarded. Upon such administrative fine, applications were filed respectively for the settlement first and then for the abolishment of the said administrative action with The Ministry of Trade. Our application for the abolishment of administrative fine was refused, and the official notification of the Ministry with regard to the settlement date is being awaited in the course of settlement

According to management decision, as of 30 September 2018 the Company has recognized no provision in the consolidated financial statements that has been made for fulfillment of the obligation to the extent that it is not probable that a material outflow of resources embodying economic benefit will have occurred.

Other issues

Provision has been provided in the consolidated financial statements for the probable court cases against the Group based on the lawyers' assessments. The provision for such court cases is amounting to TL 51.297 as at 30 September 2018 (31 December 2017: TL 47.668). For the rest of the cases, Group lawyers commented that basis of those cases are not realistic and should be appealed. Therefore, no provision has been provided for these cases.

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)

15. FINANCIAL RISK MANAGEMENT AND POLICIES (CONTINUED)

Explanation on the presentation of financial assets and liabilities at their fair values

The below table summarizes the carrying amounts and fair values of financial asset and liabilities.

Due to their short-term nature, the fair value of trade and other receivables represents their book value. The fair value of borrowings with fixed interests is obtained by calculating their discounted cash flows using the market interest rate effective at the reporting date. The fair value of foreign currency denominated borrowings with variable interests is obtained by discounting the projected cash flows using estimated market interest rates.

	Carrying amount		Fair value	
	30 September 2018	31 December 2017	30 September 2018	31 December 2017
Financial assets				
Cash and cash equivalents	6.187.046	4.100.204	6.187.046	4.100.204

Derivative financial liabilities	393.525	309.441	393.525	309.441

(*) Group's share in Cetel is carried at cost. Information on fair value of share in Cetel is not available.

(**)Trade payables and other liabilities item includes trade and other payables, employee benefit obligations and other liabilities contained within other current liabilities. Taxes and other payables contained within employee benefit obligations and advances contained within other current liabilities are excluded.

Fair value hierarchy table

The group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets (unadjusted)

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contains observable market inputs

(Currency in thousands of Turkish Lira ("TL") unless otherwise stated, all other currencies are also disclosed in thousands)
